CHAMBER *of* COMMERCE

June 21, 2010

Chairman Julius Genachowski  
Commissioner Michael J. Copps  
Commissioner Robert M. McDowell  
Commissioner Mignon Clyburn  
Commissioner Meredith Attwell Baker  
Federal Communications Commission  
445 12th Street, SW  
Washington, DC 20554

*Re: MB Docket No. 10-56*

Dear Chairman and Commissioners:

Comcast is one of our top corporate citizens in Washington, DC. As such, I am writing to ask the Commission to approve the company's planned partnership with NBC Universal.

For more than 70 years the DC Chamber of Commerce has been a champion for the Washington Metro business community. We support the development and growth of area companies and industries. We expect our members to be active in the communities where they do business. Comcast is highly regarded as a job and revenue generator, a leader in telecommunications technology and a corporate citizen that invests in local organizations that support and promote diversity and inclusion, reading and digital literacy, and children and families.

Comcast has also been a top-notch Chamber member. Comcast executives have received several Chamber awards over the years, and its local Vice President for Government Affairs, Donna Rattley Washington, provides invaluable leadership and direction as a member of our board.

As a Chamber, we believe in business expansion and growth that is not fettered by government intervention. I respect the FCC's important work and trust it will not hamper the opportunities this transaction offers.

Sincerely,

  
Barbara B. Lang  
President & CEO  
D.C. Chamber of Commerce
